

HEIR TO TURKISH THRONE MAKES PLEA TO AMERICA

Urges the Adoption of Wilson Principles and Speedy Return to Peace.

CONSTANTINOPLE, Nov. 27 (Associated Press).—Abdul Medjid Efendi, son of former Sultan Abdul Aziz and heir presumptive of the Ottoman throne, in an interview given the Associated Press to-day, expressed the hope that the United States would ratify the Treaty of Versailles and make an appeal in behalf of his own people.

"It is stated that the Turkish peace is being delayed because of the attitude of the United States," Abdul Medjid said. "It should be remembered that we have been warring for the past ten years. We are exhausted.

"What should be done now? It will be remembered that Alsace and Lorraine were one of the causes of

the great war. Well, if Turkey is partitioned, it will make new problems of the same kind.

"For the sake of the whole of humanity let the United States of America continue its fight for an honest peace. The Wilsonian principles are based upon eternal peace for all the world. If United States quits now it

will mean new disasters, and also it may drag her into new quarrels which will cost more than the sacrifices which the present peace involves."

Prince Medjid is nearing fifty years of age. For thirty-three years he was a prisoner under the late Sultan Abdul Hamid in a palace on the Heights of Scutari.

The
won-der-ful
dolls

The dolls came to Wonderland tumbling over each other in their haste. There is the walking doll who delights in walking when you hold her hand and walk with her.

The washable rag dolls flopped along with the clowns, who were dressed in pinks, blues and reds, and had little buttons for ears. The whole family of Kewpies came, even the little celluloid babies.

REG U.S. PAT OFF
Ru-stella

The Phonograph with the "master made horn"!

Where can you buy such a
phonograph at the price?

We offer no "term" allurements
What you get for paying cash:

For \$42.50—model E, a table machine finished in genuine mahogany veneer, which is unusual for machines of this type. In size it is equal to another leading make which sells at \$70.00! Besides several other improvements our model is equipped with the trumpet-violin shaped "master made horn." (Patent applied for.)

For \$89.50—model D, made in oak or mahogany finish. A machine which we have compared with two other leading makes selling at \$130.00 to \$140.00 respectively—with the balance in our favor. This cabinet is 45 inches high and is also equipped with the "master made horn."

For \$129.00—model C, is 47 1/2 inches high and is made in oak or mahogany finish. The price includes record albums. It is built on Queen Anne lines and is equipped with the "master made horn." We cannot find its equal at anywhere near the price on the market!

For \$159.00—model B, is 50 inches high and is equipped with the "master made horn" and a three spring motor. The price includes record albums and represents a saving of 30% on the price that you would have to pay for machines which are sold on "terms."

For \$184.00—the most beautiful of all Ru-stella models! All the metal parts are gold plated; finished in mahogany only, fitted with the "master made horn" and a three spring motor. Price includes record albums. Ask to see other features. Height 51 1/2 inches. Other good phonographs of about this size sell for \$275.00 to \$300.00 on "terms"!!

One more improvement—all the "Ru-stella" models are equipped with the Universal tone arm, which plays all records.

If you will compare these prices with those of other leading makes we feel confident that the "Ru-stella" will be your choice.
